

February 1, 2024

Dear Supporter,

Today marks the state deadline for petition validation for all citizen initiatives in Florida, and with that our petition-gathering efforts have officially come to a close.

While we did not reach the signature threshold needed to qualify for ballot placement this November, we are beyond grateful for the tens of thousands of life-minded Floridians who signed our petition in support of this worthy endeavor to protect all preborn lives in our state.

We want to extend a huge thank you to all the incredible individuals, families, churches, and organizations from across the state that rallied behind our efforts. While the objective we were aiming for was not reached, the time you invested still has great significance, which we believe will continue to be realized in the months and years to come.

In the meantime, there are still some expenses associated with wrapping up the petition phase of our efforts to protect every preborn life in Florida. If you are in a position to help, your [financial support](#) to cover these costs would be greatly appreciated, and will be put to use right away.

We look forward to sharing more updates soon on where we go from here!

With gratitude,

**Mark Minck**  
State Chairman
